She carried a bouquet of white roses. Her bridesmaid, Miss Helen Hoar, was dressed in pink satin trimmed in white marabout. She wore a large picture hat and carried pink roses. Dr. Hull's best man was the bride's brother, Mr. Charles Metzger. Music was furnished by a choir of children's voices. About 300 guests witnessed the ceremony, and immediately after the service, a wedding breakfast was served to the members of the family at the Metzger home. Dr. and Mrs. Hull went to Kansas City to spend a few days, and upon their return they will be at home at 631 Horne street. Dr. Hull is a graduate of the Kansas City Dental college and is now practicing dentistry in partnership with the Goodwin Bros. He has been a member of the orchestra at the Grand for some time, and played in Marshall's band for a number of years.

The frock in this sketch is made of fawn colored voile over a darker shade of silk. The full bodice and sleeves are one, a continuous band of embroidered net bordering the shoulder and sleeve. There is a double skirt of the voile bordered with a broad band of net—which by the

way, is in the shade of the voile—and beneath the upper tunic a sash of brown silk is draped, tying in a huge bow at the opening of the tunic on the left side. A large flat bow of this silk—which is also used for the girdle—trims the bodice front.

tried to discourage their children's imaginative tendencies. That seems to me like uselessly shutting them out from a beautiful playground especially prepared for them.

I have a little cousin seven years old who loves to have me come and see her because we have a beautiful game we play together.

It's called "Let's pretend."

We have chosen a beautiful mansion near her summer home and we pretend that when Jeanette is a little older we are going to live there together.

In the spacious stable we are going to have four milk white ponies for Jeanette and a pair of coal black chargers for me. We are going to have a lovely sailboat and a little steam yacht. We are going to invite lots of the poor little children down from the cities to visit us and take them out on the water—let them ride the ponies, pick the flowers in the fields and in our greenhouse, and give them ice cream three times a day.

In the big room on the left of the front door—we have never been in there because we have never past it so many times and looked at it so carefully that we are sure we know what it looks like inside—we are going to have a sort of combination ice cream parlor, soda fountain and candy shop. Any time we like we may go in there and they will give us anything we want and we will not have to pay anything for it.

The passport to the kingdom of "let's pretend" is part of every child's birthright.

When a parent who helps the child realize the full value of that passport, and happy the child who not only uses it through childhood but can grow up without wholly forgetting his passport into the land of "let's pretend" and "someday."

ONE OF THE QUEER ONES.

Man at Grenola Thought Stanley Was Still Governor.

There is a man living at Grenola who does not know that W. R. Stubbs is governor of Kansas. Worse than this, he does not even know that the late Governor Stanley has given up the executive office in the state house, although three governors have held the office since Stanley went back to his home in Iowa. Former Governor Stanley died last fall, but of course the Grenola man never heard about that fact.

Today a letter came to the governor's office addressed to "Governor Stanley, Topeka, Kan., care of the seed department." It read as follows:

"Kind Sir: I have been receiving your garden seeds for some years. I appreciate them very much for they are the best I get. I've changed my address from Uniontown to Grenola, Kan."

The letter is written in a clear and legible hand and there are no misspelled words in it except the name of Governor Stanley, which is spelled "Stanley."

It is hard to find an excuse for such ignorance, anyway, in these days of newspapers and rural delivery and telephones. Think of it! A governor goes out of office, his successor is inaugurated and serves two years. There is a red hot state campaign and a new governor is elected. He serves two years, is re-elected and then leaves his office and his successor is elected and serves two years and is re-elected. Three dynasties have been elevated and all passed away. The state stirred to the center by factional war in the dominant party. A new political order of things established. Strife, upheaval, change from the old to the new. William Allen White thunders, "Let's burn the copies of lunatics and the rise of new stars. And while all men wonder and talk without ceasing in every school district of the state, the state is ruled by a man from Grenola, this second Rip Van Winkle, and writes to Governor Stanley at the state house to ask for seeds. The copies of lunatics and the same time Joshua made the moon and sun stand still and been overlooked by Joshua after the Philistines had all been killed. He just got started again this week. He has lost nine years out of his life.

And by the way, since when has the state of Kansas, through its governor, been giving away garden seeds?

As there is often some one in your family who suffers from an attack of indigestion or some form of stomach trouble, why don't you keep some Diapiesin in the house handy?

This harmless, blessing will digest anything you eat without the slightest discomfort, and overcome a sour, gassy stomach five minutes after.

Tell your pharmacist to let you read the formula plainly printed on these 50-cent cases of Pape's Diapiesin, then you will readily see why it makes indigestion, Sour Stomach, Heartburn and other distress go in five minutes and relieves at once such miseries as Belching of Gas, Eructations of sour undigested food, Nausea, Headaches, Dizziness, Constipation and other Stomach disorders.

Some folks have tried so long to find relief from indigestion and dyspepsia or an out-of-order stomach with the common every-day cures, they've verified that they have about made up their minds that they have something else wrong, or believe theirs is a case of Nervousness, Gastritis, Catarrh of the Stomach or Cancer.

This, no doubt, is a serious mistake. Your real trouble is, what you eat does not digest; instead, it ferments and sours, turns to acid, Gas and Stomach poison, which putrefies in the digestive tract and intestines, and, besides, poisons the breath with nauseous odors.

A hearty appetite, with thorough digestion, and without the slightest discomfort or misery of the Stomach, is waiting for you as soon as you decide to try Pape's Diapiesin.

Everybody reads the State Journal.
